178mm x 601mm x 305 mm

Weight: 24.58 lbs / 11.15 kgs

Can fit:
Under the Bed
Behind the Couch
In the Boat

The CP8: Fits Anywhere!

The CP-8 is a self-powered subwoofer that delivers massive fast bass into your seating position. By placing the subwoofer close to you, the bass is faster, more powerful, and carries massive sub harmonic vibrations with it.

With an integral high-power 300 Watt MAX amplifier, the CP-8 subwoofer provides an RCA input and a high level input with a crossed high level output. CP-8's high output level is designed to match typical satellite speaker systems to enhance the overall sound quality and performance of your system.

The slim enclosure design allows you to place the CP-8 under the sofa, behind it or under the bed. Now you can have massive bass while using unused space.
