

MiniMe DSP Subs

The Sound That Will Move You

NEW & SHIPPING

MINIME DSP P10/P12

PRODUCT RELEASE

SLAPS
Passive Radiator

SPECIAL FEATURES & HIGHLIGHTS

- DSP control through iWoofers™ app
- SLAPS patented passive radiator system
- Passive tuned design for unmeasurable accuracy
- 600-Watts class “D” powered amplifier with automatic signal-sensing turn-on and stand-by mode
- Sub operation switch for different ranges
- High gloss multi layer piano black lacquer finish for a mirror shine
- Long throw, premium quality drivers
- Operation status LEDs
- RCA inputs
- Selective variable crossover
- Comes with remote and remote eye
- Auto room correction
- SHS (Sub-harmonic Synthesizer)

Expanding on our great MiniMe series of subwoofers, the all new MiniMe DSP amplifier utilizes Earthquake’s advanced class “D” circuitry with over 90% efficiency plus the added benefits of DSP control through mobile devices. Complicated and professional room tuning is now made possible right at your finger tips through a mobile app allowing the user to dial in this MiniMe exactly to the room that it is placed in.

In order to optimize sound and clarity on a subwoofer, it must be tuned properly to its environment. Through an automated room correction process that the iWoofers™ Pro app offers, you will get the customized performance that you deserve and achieve the maximum amount of SPL and a more linear response for your home theater. Up to a 48dB/octave crossover is also available within the application for a steep frequency cutoff.

The MiniMe DSP would not be complete without our patented and infamous SLAPS passive radiator technology. It dramatically increases the subwoofer’s efficiency and capability for subharmonic frequency reproduction and high SPL that can be felt. The unique design of the SLAPS passive radiator employs dual identical suspensions and a specified mass that allows it to move the same amount of air in either direction. When coupled with a premium active driver, SLAPS enables the sub to deliver more bass at sub harmonic levels while reducing the load on the amplifier.

The MiniMe DSP not only sounds amazing but it also features stunning looks with its finely finished deep multi-layered black piano lacquer and high gloss clear coat. When it comes to elegance and performance, MiniMe DSP has set the bar and will dish out some serious bass for your enjoyment.

MiniMe DSP Subwoofer		
	DSP P10	DSP P12
Amplifier Power	600 Watts Class “D”	
Frequency Response	20-135Hz	18-115Hz
Driver & SLAPS Size	10"	12"
Finish	Glossy Piano Black Lacquer	
MSRP	\$1,099.00	\$1,399.00
